

SASW 2009

4th IEEE Systems and Software Week 2009

Skövde, Sweden ❖ 12 – 16 October

Infusion - the Information Fusion Research Program at the University of Skövde – cordially invites you to the [4th IEEE Systems and Software Week 2009](http://www.his.se/infusion/sasw2009) in Skövde, Sweden.

Systems and Software Week brings together practitioners, researchers and educators in the fields of Software Engineering, Systems Engineering, Information Fusion, and Open Source Systems in a single forum. Participants from government, industry, academia and all walks of life are welcome to attend. SASW provides an arena for discussion and reflection on new innovative ideas to contribute to the further development of these fields. We are especially interested in creating an environment for discussing challenging new research issues and novel application areas.

Systems and Software Week 2009 will be held at University of Skövde campus in Skövde, Sweden, on 12 – 16 Oct 2009. Registration for the main sessions will allow participants to attend:

- ❖ The 33rd IEEE Software Engineering Workshop (SEW-33)
- ❖ The 3rd Annual Skövde Workshop on Information Fusion Topics (SWIFT 2009)
- ❖ The Open Source Workshop 2009 (OSW 2009)

For submission instructions and further information about the workshops, please see www.his.se/infusion/sasw2009.

We are looking forward to your participation in Skövde, Sweden in October 2009!
The SASW 2009 Organizing Committee
