Application Summary Sheet
Data Science – Master´s Programme
For programme-specific requirement and selection

Personal information

First name*	Family name*
Application number	E-mail*

Besides the general supporting documents required by UniversityAdmissions, this programme requires additional documents to support your application.

1. Application summary sheet
2. Certificates of work experience signed by the company relevant for this programme (not mandatory). The certificate should state the workplace, length of time and tasks.
3. An official certificate stating the courses you will take in your final year if your transcript does not included these courses

The purpose of these documents is to facilitate the assessment of your qualifications for eligibility and selection for Data Science - Master's Programme. Please upload these documents with the rest of your documents required by www.universityadmissions.se.

If you have done or are currently doing a Degree Project/thesis/ independent work/research project/ internship or similar. Please specify the name of the course as stated in your transcript

_____

Credits awarded in local credits

_____

Courses in Programming and Mathematics or Statistics

To be eligible for the programme, you must have passed courses equal to at least 7,5 Swedish higher education credits or ECTS in Programing and 7,5 Swedish higher educaation credits or ECTS in Mathematics or Statistics. The courses do not need to be included in your degree. Only courses from higher education at an internationally recognised university which has been assessed by UniversityAdmissions may be taken into consideration. List the courses that you have passed in Programming, Mathematics and Statistics. Sometimes, the subject covered in a course is not reflected in the course name; in this case, highlight the course in the form and upload the course syllabus on UniversityAdmissions.se along with this form.
