**Date of ratification:** 7 November 2023

## 1. General information about the course

The course is provided by University of Skövde and is named Organizational and Entrepreneurial Resilience and Sustainability G1F (Organisatorisk och entreprenöriell resiliens och hållbarhet G1F). It comprises 3 credits and is a first-cycle course. The level of progression is G1F.

The course is a part of the main field of study in Business Administration. The disciplinary domain of the course is Social Sciences.

## 2. Entry requirements

The course has the following entry requirements: passed FÖ114G Organization and Management I G1N (or the equivalent).

A further requirement is proof of skills in English equivalent of studies at upper secondary level in Sweden, known as the Swedish course English 6. This is normally demonstrated by means of an internationally recognized language test, e.g. IELTS or TOEFL or the equivalent.

## 3. Course content

The course aims to develop students' theoretical and practical knowledge in organizational and entrepreneurial resilience as well as the relationship to the three dimensions of sustainability (economic sustainability, social sustainability and ecological sustainability). Organizational and entrepreneurial resilience is viewed from a classical perspective, systemic perspective and critical perspective. The course objectives are achieved through a written individual student assignment and an oral presentation at a final seminar.

The individual assignment is to analyze the sustainability of a company or another organization (e.g. public organisation) based on literature and research of organizational and entrepreneurial resilience. At the final seminar, the students present their assignments and review other students' assignments.

## 4. Objectives

After completed course the student should be able to:

### Knowledge and understanding

- describe, compare, and contrast central concepts, models, and processes in organizational and entrepreneurial resilience and the relationship to sustainability,

### Skills and abilities

- analyze central concepts, models, and processes used in organizational and entrepreneurial resilience and the relationship to sustainability,
- apply relevant concepts, models, and processes in organizational and entrepreneurial resilience on relevant empirical phenomena,

### Evaluation ability and approach

- reflect upon the significance of in organizational and entrepreneurial resilience in relation to sustainable development.

## 5. Examination

The course is graded A (Excellent), B (Very good), C (Good), D (Satisfactory), E (Sufficient) or F (Fail).

The examinations of the course consist of the following modes of assessment:

- **Individual assignment**  
2 credits, grades: A/B/C/D/E/F (determines the final grade)
- **Seminar presentation and opposition**  
1 credit, grades: G/U

Students with a permanent disability who have been approved for directed educational support may be offered adapted or alternative modes of assessment.

## 6. Types of instruction and language of instruction

The teaching is comprised of lectures and seminars.

The teaching is conducted in English.

## 7. Course literature and other educational materials

A selection of scientific articles.

## 8. Student influence

Student influence in the course is ensured by means of course evaluation. The students are informed about the results of the evaluation and potential measures that have been taken or are planned, based on the course evaluation.

## 9. Additional information
